	Vouching with information in record <input type="checkbox"/>		
	Photo ID <input type="checkbox"/>		
	Proof <input type="checkbox"/>		
Staff name authorising access		Date	

Important Information – Please read before return this form

If you wish, you can now use the internet/mobile phone to book appointments with a GP, request repeat prescriptions for any medications you take regularly, look at test results, immunisations and medical records all online. Also, you can still call the surgery for any queries regarding the above services. It's your choice.

It will be your responsibility to keep your log in details and password safe and secure. If you know or suspect that your record has been accessed by someone that you have not agreed should see it then you should change your password immediately. If for any reason you cannot do this, we recommend that you contact the practice so that they can remove your online access until you are able to reset your password.

If you print out any information from your records, it will be your responsibility to keep this safe and secure. If you are at all worried about keeping printed copies safe and secure we recommend that you do not make copies at all.

Before you apply for online access to your record there are some other things to consider.

Although the chances of any of the following happening are very small, you will be asked if you have read and understood the following before you are given log in details from our staff member.

Forgotten history There may be something you have forgotten about in your record that you might find upsetting
Abnormal results or bad news If your GP has given you access to test results or letters you may see something that you find upsetting to you. This may occur before you have spoken to your doctor or while the surgery is closed and you cannot contact them
Choosing to share your information with someone else It's up to you whether or not you share your information with others – perhaps family members or carers. It's your choice, but also your responsibility to keep the information safe and secure.
Coercion If you think you may be pressured into revealing details from your patient record to someone else against your will it is best that you do not register for access at this time
Misunderstanding medical information Your medical record is designed to be used by clinical professionals to ensure that you receive the best possible care. Some of the information within your medical record may be highly technical, written by specialists and not easily understood. If you require any further clarification, please contact the surgery for a clearer explanation
Information about someone else If you spot something in the record that is not about you or notice any other errors, please log out of the system immediately and contact the practice as soon as possible
